Manual Vendor Bill Entry Is Slowing You Down

Finance teams still waste hours every week entering vendor bill data into NetSuite by hand.

That means:

- Delayed approvals
- Prone-to-error data
- Burnt-out AP teams
- Bottlenecks in scaling finance workflows

It's time to rethink how vendor bills get into your ERP.

Automate Vendor Bill Processing in Netsuite

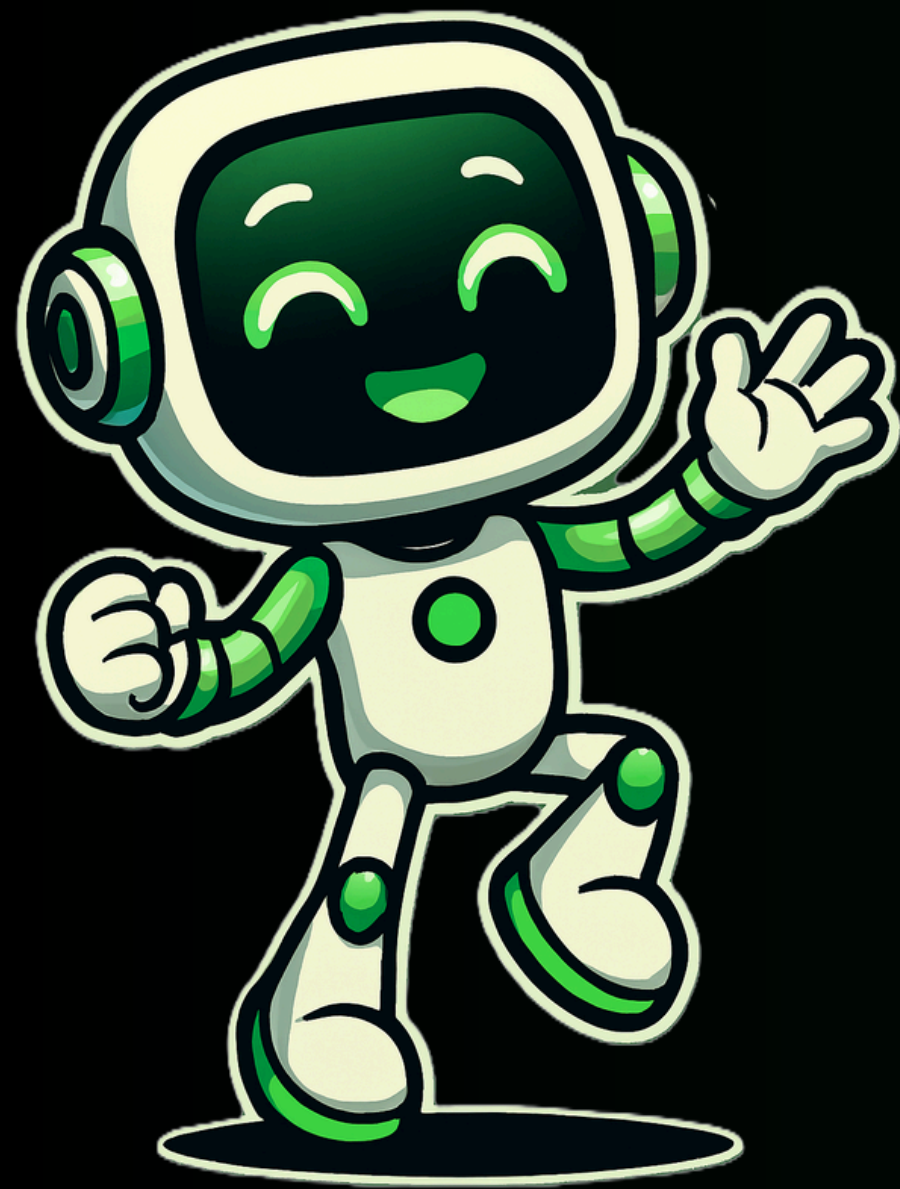

-  Speed up bill entry
-  Increase accuracy
-  Save time and costs
-  Fully customizable

Meet TechlyCodes's **Suite Scan OCR** for NetSuite

Our solution automates the entire process of vendor bill entry by intelligently extracting data from PDF files and directly creating vendor bills in NetSuite — with unmatched accuracy and speed.

Whether you process 10 bills or 10,000, Suite Scan OCR simplifies, streamlines, and scales with you.

Why Finance Teams love Our OCR Solution

Secure & Reliable

Built with enterprise-grade data privacy in mind

Direct NetSuite Integration

Instantly creates Vendor Bill records in your NetSuite account

Fully Customizable

Adapts to various vendor formats and bill structures

Automated Data Extraction

Extracts line-level data directly from vendor bill PDFs

High Accuracy, Low Errors

Eliminates manual entry mistakes

Bulk Upload Support

Process multiple vendor bills in one go

Smart Duplicate Detection

Automatically identifies and flag duplicate vendor bills before they're created in NetSuite

Plug-and-Play Integration

No complex setups. Seamless with existing AP workflows

How It Works

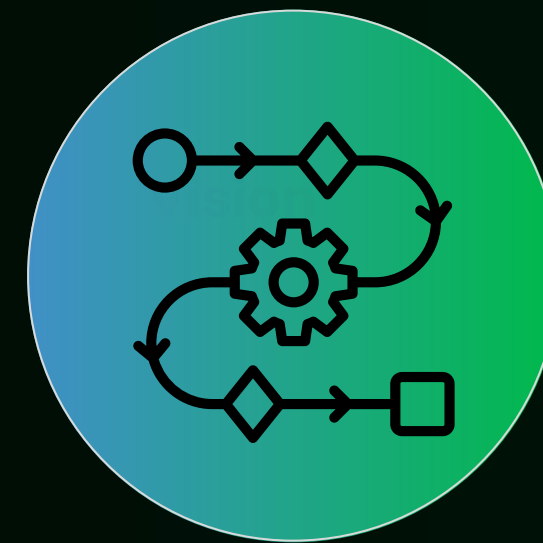

Step-1

Upload Vendor Bill
PDF

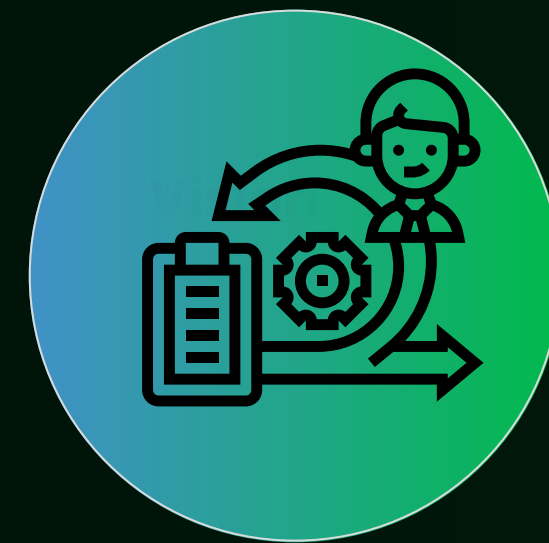

Step-2

OCR engine scans
& extracts key
data

Step-3

NetSuite Vendor
Bill auto-created

Step-4

Ready for approval
& processing

Who It's For

NetSuite implementation

NetSuite-powered finance teams

CFOs looking to streamlined operations

Mid to large businesses with high vendor volume

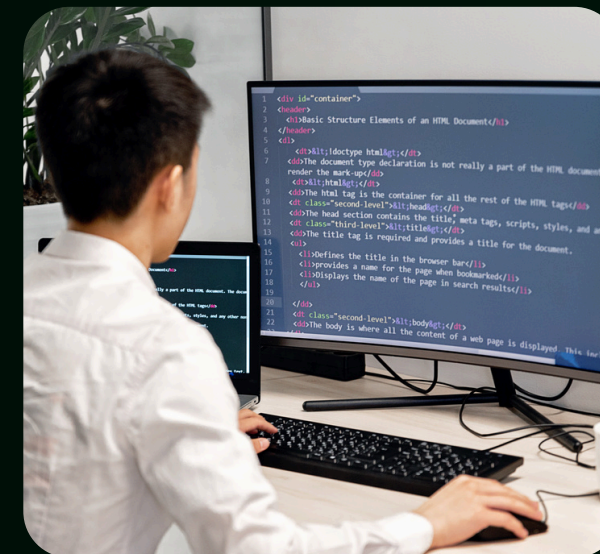

AP departments overwhelmed with manual entry

Real-World Benefits

The ROI of Automation

- 70–90% reduction in manual AP workload
- 5x faster bill processing time
- Improved focus for your finance team
- Audit-ready, accurate records
- Reduce overhead and human error costs

About-Us

At TechlyCodes, we believe business software shouldn't slow you down — it should empower you to do more, faster.

We're a technology-first team helping businesses streamline, automate, and optimize their operations with NetSuite, Oracle, and custom ERP solutions. From startups to large enterprises, our goal is to remove the manual burden from your workflows and replace it with smart, scalable, and future-ready automation.
